

1-1/2" Haven Manufacturing #811 Double-Cut Type Tube Cut-Off Machine

1-1/2" Haven Manufacturing #811 Double-Cut Type Tube Cut-Off Machine

- Cutting capacity (round):
 - Minimum OD: 0.187" (5mm)
 - Maximum OD: 1.50" (38mm)
- Cutting capacity (square): 1" (25mm)
- Maximum tube wall thickness: 0.094" (2.4mm)
- Maximum cut length: 96" (with existing stop rail)
- Cycle rate: 10,000 parts per hour (approx) depending on tube cut length
- Two parts per cycle for high-production running of two tube lengths simultaneously
- Clamp and cut action for high production

- **Stock Number:** AM13466
- **Brand:** Haven Manufacturing
- **Capacity:** 1.5000 inches

- Continuous roll feed
- Automatic lubrication system
- Allen Bradley PLC based control system
- Rexroth and Eaton components
- 12-roll double plane straightener
- Assorted tooling for 0.250" 0.312" and 0.375"
