

## 1-1/2" Criterion #26000 Tube Bender

1-1/2" Criterion #26000 twin head hydraulic tube bending machine

- Bending capacity – round tube: 1/4" to 1-1/2"
- Bending torque: 26,000 lbs. per head
- Distance between bends: 60" maximum
- Bending angle - adjustable on each head: 0 to 180 degrees
- Production rate of 500 to 900 tubes per hour can be achieved when bending 2 tubes per machine cycle (depending on tube diameter)
- Hydraulic type bend heads
- Machine mounted operator controls with two hand cycle start pedestal
- Integrated hydraulic power unit.

- **Stock Number:** AM18371
- **Brand:** Criterion Machinery
- **Capacity:** 1.5000 inches
