

Mayfran #TD-3000 Chip Wringer System Chip Wringer Chip Processing

Mayfran International Chip Processing System

- Model: TD-3000
- System Components - Hopper dumps the raw material into the machine initially:
- Hercules H-826 SP 2,000 lbs. electric / hydraulic box / material dumper
- 48" x 36" Platform
- 48" Dump Height
- 2-HP, 230-Volt, 3-Phase

- **Stock Number:**
AM21188
- **Brand:** Mayfran

System Components - Main Machine:

- 12" Diameter Screw Conveyor
- 2120 Hydraulic Shredder Unit

- 15-HP Hydraulic Power Unit
- TD-3000 Rotary Parts Separator
- TD-3000 Wringer
- MT-10 Chip Conveyor

Control Cabinet

- Allen Bradley Controls
- 480-Volt, 3-Phase
- System Components - Discharge System:
- Mayfran Pneumatic Discharge System for Chip
- Processing System
- Mayfran TD-3000 Cyclone
- 2-Way Manual Discharge Chute
- Prab 10' x 10' Diameter Screw Conveyor
- 20-HP Blower
- 230/460-Volt
