

4" Adaptive Motion #EB100 CNC Tube Bender

4" Adaptive Motion #EB100 CNC Tube Bender

- Adaptive Motion 3-axis CNC heavy duty mandrel type tube bending machine
- Model: EB100

Specifications:

- Maximum tube diameter: 4" OD
- Bending Rotation: left-hand (counter-clockwise)
- Maximum Degree of Bend: 180° + Springback

Includes:

- CNC control system
- 2-Stack bending capability
- Electric servo powered Y-Axis carriage boost

- **Stock Number:** AM21827
- **Brand:** Adaptive Motion
- **Capacity:** 4 inches

system

- Electric servo driven bend head for precise degree of bend
- Hydraulic direct acting pressure die
- Hydraulic drop away clamp die
- Hydraulic pressure die assist
- Automatic lubrication system
